The Adventures of The Mandalorian and Grogu

Problem   Submissions   Discussions

The Mandalorian and Grogu arrived on Tattoine to do jobs for the Hutts, as such Mando needs to do some bounty hunting, and after doing his job for the Hutts he gets paid in Grogu's food which is a Cookie made from Naboo, or just simply Cookies, but The Hutts mixed some things inside the Payment in a form of a bag, so help Mando to check if he is paid sufficient amount of Cookies by the Hutts, Grogu loves to eat more than 5 Cookies. Mando needs to throw out some excess payment as such help him to throw out excess payment with the command "Out", and he also needed to count how many cookies inside the bag with the command "Count them", remember there are also other stuff other than cookies. If you throw out a cookie, print "I'm Sorry Kid", if the amount cookie is sufficient (more than 5 or equal to 5), print "This is the way", if the amount of cookies are not enough, print "I can bring you in warm, or I can bring you in cold". The way that Mando checks his bag is using First In First Out

Input Format

The first line consists of N, a number that defines the amount of object inside the payment bag The Next N lines are the items inside The Next Line is the amount of commands will be instructed by The Mandalorian defined by M The Next M Lines are the Commands from The Mandalorian

Constraints

$1 \le N \le 10000$

$1 \le M \le 10000$

Output Format

For each testcase, the output is according to the test cases

Sample Input 0

```
7
Cookies
Not Cookies
Not Cookies
Not Cookies
Cookies
Cookies
Cookies
4
Out
Out
Out
Count them
```

Sample Output 0

```
I'm Sorry Kid
I can bring you in warm, or I can bring you in cold
```

Explanation 0

When Mando Throw out not cookies simply not print anything and move on

Sample Input 1

```
15
Cookies
Cookies
Not Cookies
Not Cookies
Not Cookies
